

How is the Expo Experience?

Attendees also can interact with sponsors, engage in live conversation, and explore topics in a deeper way. Booth representatives or sponsors can host multiple simultaneous conversations in a booth, and attendees can preview those meetings before deciding to join.

The Virtual Expo at BizCreditCON creates more opportunities for live networking among attendees, speakers, and sponsors. On the virtual expo floor, they can move freely around the space, network with individuals through one on one chat, and join other participants in Expo booths for topic-based conversations.
